VIDOVA gora

The highest peak on the Dalmatian islands, must be photographed with the Golden beach in the background

A photograph of a stone mason's workshop. In the foreground, a large, light-colored stone block is being carved into a decorative, symmetrical pattern. A mallet with a wooden handle and a dark head lies on the stone. In the background, there are several wooden barrels, some containing stone pieces, and a wooden stool. The workshop is well-lit and filled with various stone carvings and tools.

STONEMASON School

People from Pučišća live with the stone, off the stone, and for the stone. **With a centuries-old tradition of masonry, they are proud to have a stonemason high school – a sculpting academy unique in this part of the world!**

Arrange a tour with the school, and you can walk through their amazing workshop, accompanied by one of the Masters of stone crafts. You might get dust all over yourself, but that can be a unique experience as well.

P.S. Our washbasins are also made here!

Contact the school at: **+385 21 633 114**

📍 ŠKRIP

The Olive Oil Museum is in the wonderful small (and the oldest on the island) village of **Škrip**. Working hours are from 10 a.m. to 6 p.m., and you have the option of tasting olive oil and other homemade products, which I recommend. Book your tasting here: **+385 95 811 4643**

FISH RESTAURANT BAGO

If you want to eat fish, I recommend the Bago restaurant in Milna. On the way to Milna, you must visit the wonderful **small authentic town of Ložišće** with the most beautiful bell tower.

📍 LOŽIŠĆA

The small **ethno eco-village of Dol** is home to the beautiful family castle Kaštel Gospodnetić, which has a restaurant, but the place must be reserved in advance. Take a look at their website, and if you like it and would like to eat there, which is what I recommend, let me know, and I will reserve a place for you.

The most famous tavern on Brač, located in Donji Humac, in the central part of the island. Kopačina is open all year round, and it is always full even during off-season weekends. Here Dalmatian and Brač cuisine are at their best: fresh, seasonal, local ingredients of the best quality and excellent preparation are the secret of their success.

BEACHES

Visit any of the many beautiful beaches, here is a list of Brač beaches you can choose from:

<https://myislandbrac.com/beaches/>

ZLATNI RAT

The most famous Croatian beach

LOVREČINA

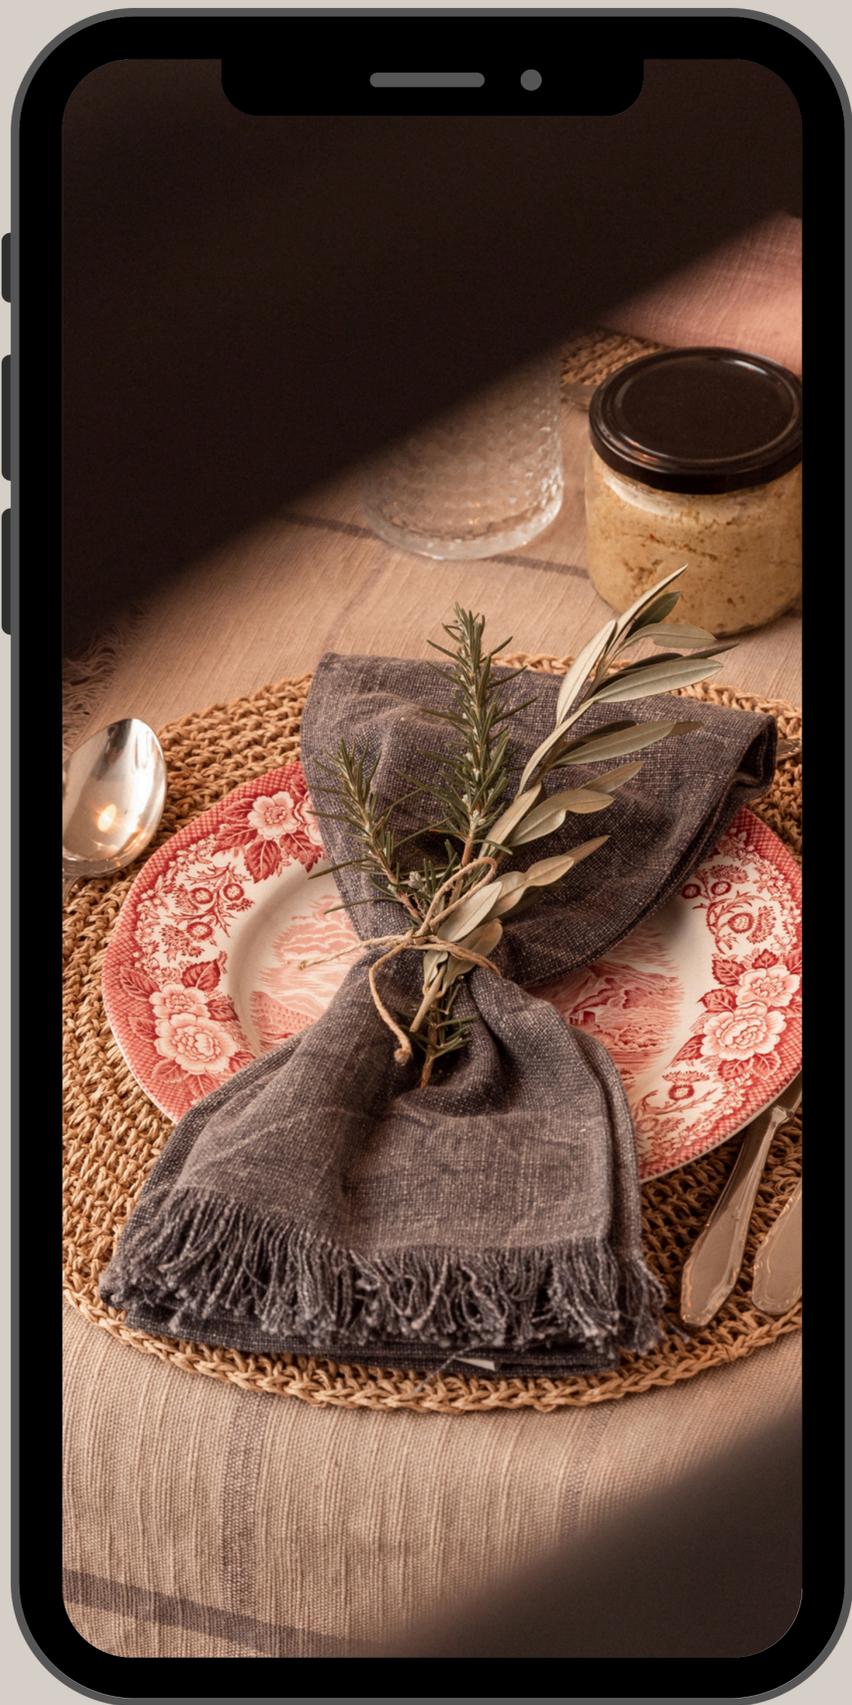

The only sandy beach on the island

I believe that this is enough for a few days on Brač. If it is not so hot and if you have come at a slightly cooler time, there are many activities that I would recommend to you, such as a visit to the **Blaca desert**, which is special and beautiful, as well as the **Dragon Cave**, but it is a lot of walking, which is not very pleasant in the summer heat. You will do that the second time you come to Brač :-)
